ALEJANDRO LEON CANNOCK, AN ARTIST WHO UNITES PHILOSOPHY TO PHOTOGRAPHY

35 years old, Peruvian, teacher of philosophy that dedicated his research to the aesthetic of existence for several years before becoming a graduated photographer: here is the very short portrait of Alejandro Leon Cannock, our new SMArt artist!

He will be welcomed in the residency of Villa Ruffieux in Sierre from September to December 2015. During his stay in Switzerland, he will certainly work on diptychs, 2 photos that will permit him to cross the look of local people on their territory with his vision on the indigenous inhabitants. His approach promises beautiful cultural meetings and exchanges!
