# **Exhibition - Agony of a glacier - Laurence Piaget - Paris**

---

Laurence Piaget presents his exhibition « Agony of a glacier » at the Swiss Embassy in Paris from November 19th 2015 to January 8th 2016. His photographs depict the Rhone glacier covered with tarps to slow its melting. These tarps stimulate the imaginary with different interpretations, where stunning visions collide: a landscape out of this world, devastated by a cataclysm, a refugee camp dotted with torn white tents sheltering imaginary survivors, agricultural covers reshaped into articulated ghosts by the withering wind, a gigantic work of art wrapped in sheets united by Christo, or even layers of death wrapped in clear shrouds
