EXHIBITION - THE DEATH OF GIANTS - YINGFEI LIANG

During her stay at the Crochetan in Monthey, the young Chinese photographer Yingfei Liang produced a photographic and video report on the worrying melting of glaciers caused by global warming.

Through this exhibition, Yingfei Liang tries to make us aware of the urgency of preserving a planet that is in bad shape. Her images aim to raise awareness and a sense of responsibility among all actors in society, in order to fight against climate change and its devastating long-term effects on our lifestyles.

Public opening in the presence of the artist: Saturday, May 6, 5:30 p.m.
