EXHIBITION - THE GREAT INVENTION OF OUR TIME - SERGIO PINZÓN

During his 3-months residency in Monthey, Colombian artist Sergio Pinzón get interested in touristic infrastructures, various installations likely to provoke environmental debates and the sometimes surprising urban developments in Valais. His artistic work consists in a series of experiences documented through photography and video, which invites reflection on the relationship between nature and culture.

Similarly, the photographers Tarek Haddad (Lebanon), Zineb Andress Arraki (Morocco) and Juan Arias (Colombia) – also exhibited as an echo to Sergio Pinzón's work – show, each in their own way, the strong imprint of man on our natural environment.
