Exhibition « We are together » - M'hammed Kilito - Marrakech

M'Hammed Kilito spent 3 months in residence in Sierre, Valais, where he worked on the theme of migration. He chose to highlight « through a reversed process, the relationship between Swiss and migrants: What happens when fear gives way to generosity, mutual aid and humanism? ». Through 3 series of photographs, M'hammed Kilito's work emphasizes the great richness that different cultures represent when there is the possibility of cultivating and transmitting them. This exhibition is to discover in Marrakech from 31 January 2019.
