EXHIBITIONS IN KIGALI AND LIMA, A PRODUCTIVE AND RICH SUMMER FOR SMART

Summer was not holidays for everybody in SMArt programme! Four exhibitions have taken place in July and August in Peru and Rwanda. Ladies first, Luana Letts presented her photos of the series «Constant transformation» produced during her stay in Switzerland in Lima, main city of Peru and Huaraz, a city in the mountains, close to glaciers.

Then Cyril Ndegeya, showed the exhibition «The hidden face of water» in two different places in Kigali. Thus, the reflexion made by these artists in Switzerland on the challenges of climate change and water management is well exported in their countries and can sensitize people around the world on these themes. The objective of SMart is achieved!
