Laurence Piaget takes part to the MATZA Aletsch project

Half way between art and scientific exploration, MATZA confronts for the second times artists and researchers in order to explore and reflect upon issues connecting land, the collective use of natural resources and democracy. After three weeks in Mojave desert (MATZA Amboy) and an exhibition launched the 5th July in the US, the first edition of MATZA Aletsch starts in September on Aletsch glacier. A varnishing at the Konkoria hut is planned on the 17th September 2016, at 2850 m. high! This will be the opportunity to discover the work of Laurence Piaget and other artists who will stay for 2 weeks' residency in the hut. [More information here](#)
