« Migration » exhibition in Rabat

Assuming that culture is a powerful vector to raise awareness, the SMArt program, in partnership with the Swiss Agency for Development and Cooperation (SDC), promotes intercultural and artistic exchanges with countries of the global South. The « South-South Actions » component of the program aims to encourage exchanges between artists, build bridges between artists, civil society and academics, and pursue discussions on the program's themes within our partner countries.

On the occasion of International Refugee Day, the Fondation Orient-Occident in Rabat, in partnership with the SMArt program, is inaugurating the « Migration » exhibition curated by Aniko Boehler and Aristide N'dah. It brings together multidisciplinary Moroccan artists: the visual artists Mo Baala and Zineb Benjelloun, and the photographers Ziad Naitaddi and Yassine Sellame, who will reflect on the topic of migration through the lens of their art.

Exhibition: June 21 - July 21, 2023, Fondation Orient-Occident, Rabat

Opening: June 21
