Moroccan photographer Malika Sqalli at Verzasca FOTO Festival

"In camino", the 2019 edition of Verzasca FOTO Festival focuses on the theme of walking. The Festival aims to act as a crossroads for all the paths we've walked on, are walking on and will walk on in the future. This edition is dedicated to people in movement and the festival will become a place of inter-action and integration where we can share our stories and discover those of others thanks to the participation of photographers from all around the world.

In the frame of the Festival, Moroccan photographer **Malika Sqalli**, who was in residency during three months in Sonogno in Verzasca Valley will celebrate the opening of her exhibition on Friday 6th September at 18:00.

The photography night on Saturday 7th September will also be an opportunity to discover the artwork of Malika Sqalli as well as numerous other artists.
