SMArt in partnership with TheWorkHub

Since 2017 SMArt has been partnering with TheWorkHub, a friendly and dynamic co-working space in Vevey. Two exhibitions are presented each year, allowing SMArt artists and their projects to be discovered by another audience.

After Alejandro Leon Cannock's « Deterritorialization of the glacial landscape » and Juan Arias' « The wolf at the door », we are pleased to present Lavonne Bosman's « Light of Hope ». A new opportunity to discover her emotional portraits around the history of migration in the Swiss Alps.

Opening: 31th October from 18:00
