Sunderiya Erdenesaikhan presents her projet at cultural advent calendar in Brig

The cultural Advent calendar in Brig provides an ideal platform for local artists* to showcase their creations and allows the public to discover the many facets of local cultural creation.

Every evening during the Advent period, the creations of local artists are presented. The basic idea behind the calendar is to get people in the mood for Christmas through culture. In this way, the calendar becomes a place for people to meet, get to know each other and exchange ideas – for creativity and inspiration.

On 15 December, Mongolian photographer Sunderiya Erdenesaikhan will be presenting her project as part of her SMArt residency in Bellwald. She is looking for traditional foods in Valais and parallels to the traditions of her homeland, Mongolia.
